The best cloud platform
for Managed Print Services
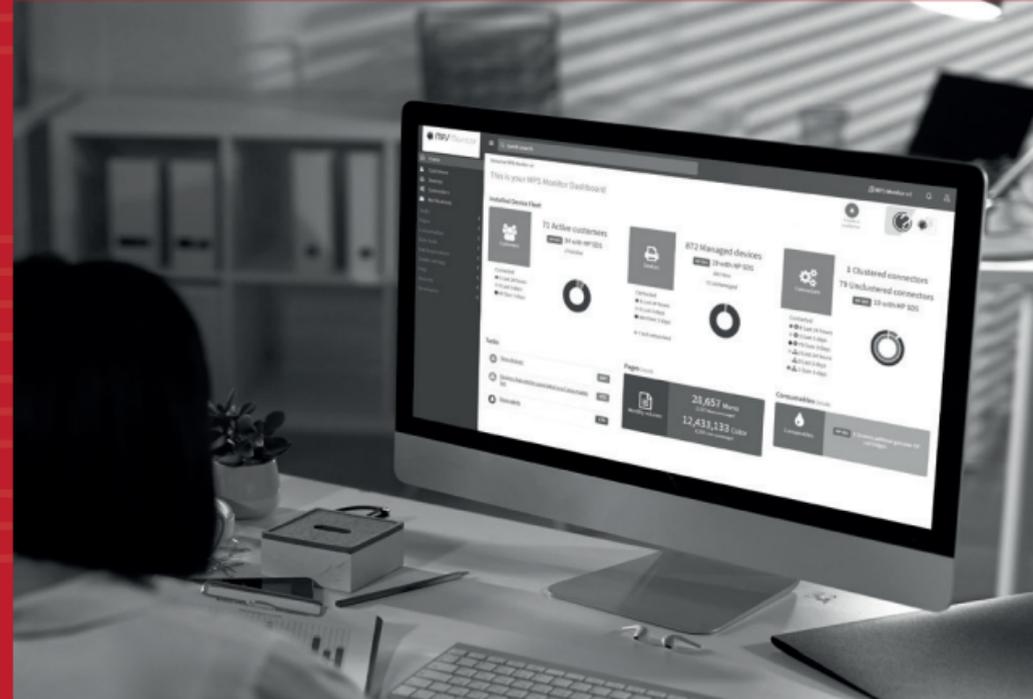

MPS Monitor
Printer Monitoring in the Cloud

ABOUT US

MPS Monitor is a world leader in Software as a Service (SaaS) solutions for Managed Print Services. The platform is globally recognized as one of the most complete and advanced print fleet management solutions available on the market. Its unique ease of use, combined with reliable data flow, security, and flexibility, makes it the ideal choice for any dealer or service provider that manages a fleet of printing devices.

VISION

We believe that, through complete control of printing devices, our customers can save time and costs, improve their operations and workflows, and provide a positive impact on environment by eliminating waste and reducing consumption.

MISSION

We strongly believe in challenging technology innovation; our every morning goal is how can we make our company a better version of itself today than it was yesterday.

VALUE

We challenge the innovation by doing our products easy to use, available as a Web service in Cloud, with the highest security levels and the full integration in ERP and CRM systems.
